## CLOSED AREAS in the Aleutian Islands Area for subsistence salmon fishing:

- Waters of Unalaska Lake, its tributaries and outlet stream.
- Waters of Summers, Morris and McLees Lakes and their tributaries and outlet streams.
- All streams supporting anadromous fish runs that flow into Unalaska Bay south of a line from the northern tip of Cape Cheerful to the northern tip of Kalekta Point;
- All freshwater on Adak and Kagalaska Islands in the Adak District.

## Special Provisions

- ◆ You may take fish (except salmon, rainbow/steelhead trout, and char) at any time without a subsistence fishing permit, unless specified by emergency action.
- ◆ In the Unalaska and Adak Districts, you may obtain an additional subsistence salmon fishing permit if you can show that more fish are needed.
- ◆ You must keep a record on the reverse side of the permit of subsistence-caught fish, and complete the record immediately upon taking the fish. This permit must be returned no later than October 31.
- ◆ You may take salmon by seine or gillnet or with gear specified on the subsistence fishing permit.
- ◆ In the Unalaska District, if you fish with a net, you must be physically present at all times when the net is being fished.
