2008 Yukon River Summer Salmon Fishery News Release # 1
2008 Yukon River Salmon Outlook and Management Strategies
 Districts Affected: Yukon River Area

2008 Yukon River Salmon Outlook and Management Strategies

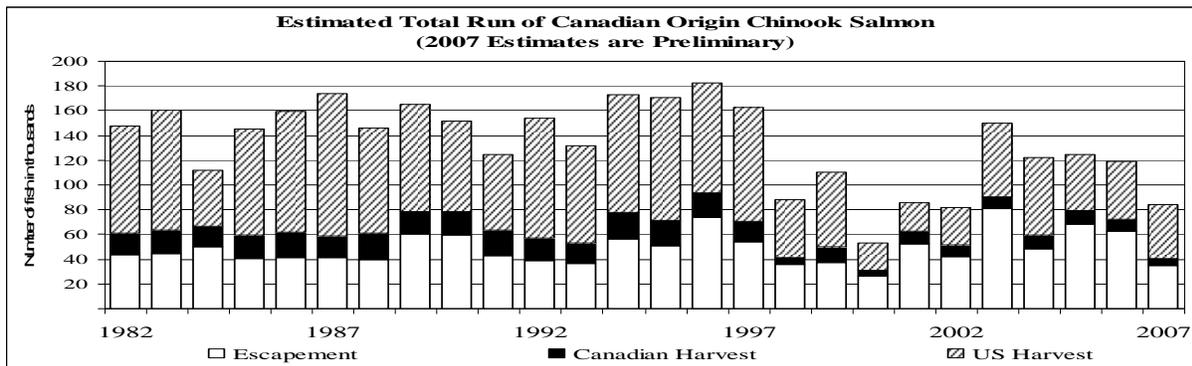

Chinook Salmon	Chum Salmon	Coho Salmon
Below average run is projected to provide for escapement and subsistence uses.	Average run is projected to provide for escapement and subsistence uses.	Average to above average run is projected to provide for escapement and subsistence uses.
2008 Chinook salmon run is anticipated to be similar to 2007.	Summer chum commercial harvest is anticipated to be between 500,000 and 900,000 fish.	Runs have been increasing due to improved production.
Commercial harvest is anticipated to be between 5,000 and 30,000 fish.	Fall chum commercial harvest is anticipated to be between 50,000 and 400,000 fish.	Commercial harvest is anticipated to be between 50,000 and 70,000 fish.

MANAGEMENT STRATEGIES

- Initial management will be based on preseason projections and shifted to inseason project information as the runs develop.
- Continue the regulatory subsistence salmon fishing schedule until run assessment indicates there is a harvestable surplus for additional subsistence opportunity and other uses.
- Because of the unexpected weak Chinook run in 2007, the department will be delaying Chinook directed commercial fishing in 2008 until the midpoint of the run to ensure that escapement and subsistence needs and Canadian border obligations will be met. At that time, Chinook directed openings may occur if a surplus is identified beyond escapement and subsistence needs.
- If a surplus of summer chum salmon is identified above escapement and subsistence needs, there may be directed chum commercial fishing with gillnets restricted to 6 inch maximum mesh size. The actual commercial harvest of summer chum will

likely be dependent on market conditions and may be affected by a potentially poor Chinook run.

- The US/Canada Yukon River Panel agreed to a one year Canadian Interim Management Escapement Goal (IMEG) of >45,000 Chinook salmon based on the Eagle sonar program and set a 3 year IMEG for the Fishing Branch River of 22,000 to 49,000 fall chum salmon based on the Fishing Branch River weir count.
- The US/Canada Yukon River Panel agreed to a Canadian Yukon River fall chum salmon mainstem escapement objective of >80,000 fish based on the Eagle sonar program.

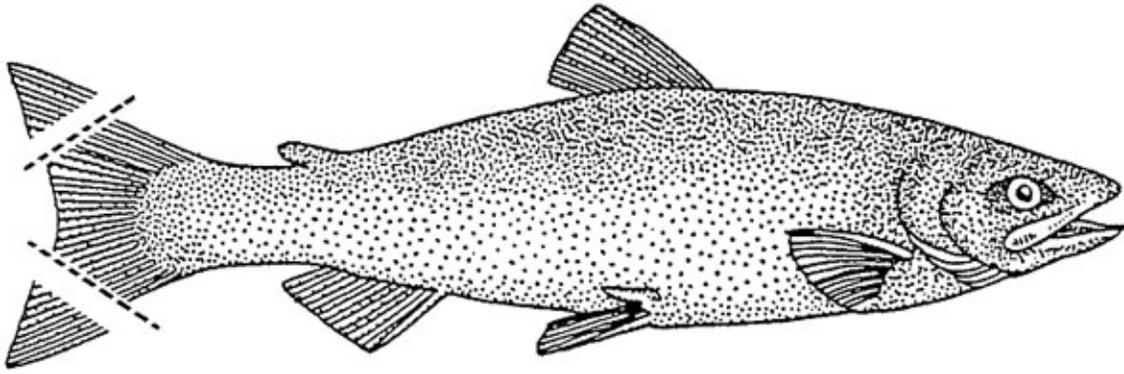

The subsistence salmon fishing schedule will be used early in the season until the salmon run size is projected to be of sufficient strength to warrant discontinuing the schedule. The schedule is intended to reduce harvest impacts during years of low salmon runs on any particular run component and to spread subsistence harvest opportunity among users. The schedule is based on current, or past, fishing schedules and should provide reasonable opportunity for subsistence users to meet their needs. Please Note: this schedule is subject to change depending on run strength.

Area	Regulatory Subsistence Fishing Periods	Schedule to Begin	Days of the Week
Coastal District	7 days/week	By Regulation	M/T/W/TH/F/SA/SU – 24 hours
District 1	Two 36-hour periods/week	May 26, 2008	Mon. 8 pm to Wed. 8 am /Thu. 8 pm to Sat. 8 am
District 2	Two 36-hour periods/week	May 28, 2008	Wed. 8 pm to Fri. 8 am / Sun. 8 pm to Tue. 8 am
District 3	Two 36-hour periods/week	May 30, 2008	Fri. 8 am to Sat. 8 pm / Tue. 8 am to Wed. 8 pm
District 4	Two 48-hour periods/week	June 8, 2008	Sun. 6 pm to Tue. 6 pm / Wed. 6 pm to Fri. 6 pm
Koyukuk River	7 days/week	By Regulation	M/T/W/TH/F/SA/SU – 24 hours
Subdistricts 5-A, B, C	Two 48-hour periods/week	June 17, 2008	Tue. 6 pm to Thu. 6 pm /Fri. 6 pm to Sun. 6 pm
Subdistrict 5-D	7 days/week	By Regulation	M/T/W/TH/F/SA/SU – 24 hours
District 6	Two 42-hour periods/week	By Regulation	Mon. 6 pm to Wed. Noon /Fri. 6 pm to Sun. Noon
Old Minto Area	5 days/week	By Regulation	Friday 6 pm to Wednesday 6 pm

All subsistence salmon fishing with gillnets and fish wheels must be stopped during subsistence salmon fishing closures.

NOTICE: In **Districts 1-3**, from **June 1 to July 15** a person may not possess king salmon taken for subsistence uses unless **both tips (lobes) of the tail fin** have been removed. Marking must be done before the person conceals the salmon from plain view or transfers the salmon from the fishing site. A person may not sell or purchase salmon from which both lobes of the tail fin have been removed.
