Unit 26 / Hunting

(See Unit 26 Arctic Slope map)

Unit 26 consists of Arctic Ocean drainages between Cape Lisburne and the Alaska-Canada border, including the Firth River drainage with Alaska.

Unit 26A consists of that portion of Unit 26 lying west of the Itkillik River drainage and west of the east bank of the Colville River, between the mouth of the Itkillik River and the Arctic Ocean.

Unit 26B consists of that portion of Unit 26 east of Unit 26A, west of the west bank of the Canning River and west of the west bank of the Marsh Fork of the Canning River.

Unit 26C consists of the remainder of Unit 26.

Special Provisions

- The **Unit 26A Controlled Use Area**, which consists of Unit 26A, is closed to the use of aircraft in any manner for moose hunting, including transportation of moose hunters or parts of moose from July 1–Sept. 14 and from Jan. 1–Mar. 31. However, this does not apply to transportation of moose hunters, their gear, or moose parts by aircraft between publicly owned airports.
- The **Dalton Highway Corridor Management Area** consists of those portions of Units 20, 24, 25, and 26 extending five miles from each side of the Dalton Highway from the Yukon River to Prudhoe Bay. The Dalton Highway Corridor Management Area is closed to the use of motorized vehicles, except aircraft and boats, and to licensed highway vehicles, snowmobiles, and firearms except as provided below. The use of snowmobiles is authorized only for the subsistence taking of wildlife by residents living within the Dalton Highway Corridor Management Area. The use of licensed highway vehicles is limited only to designated roads within the Dalton Highway Corridor Management Area. The use of firearms within the Corridor Management Area for subsistence taking of wildlife is authorized only for the residents of Alatna, Allakaket, Anaktuvuk Pass, Bettles, Evansville, Stevens Village, and residents living within the Dalton Highway Corridor Management Area.
- You may hunt brown bear by State registration permit in lieu of a resident tag in Unit 26A if you have a State registration permit prior to hunting. Aircraft may not be used in any manner for brown bear hunting under the authority of a brown bear State registration permit, including transportation of hunters, bear, or parts of bear. However, this does not apply to transportation of bear hunters or bear parts by regularly scheduled flights to and between communities by carriers that normally provide scheduled service to this area, nor does it apply to transportation of aircraft to or between publicly owned airports. See page 20 for bear sealing requirements.
- Caribou may be taken from a boat moving under power in Unit 26.
- Swimming caribou may be taken with a firearm using rimfire cartridges.
- No more than five caribou per regulatory year may be transported from Unit 26 except by residents of Anaktuvuk Pass.
- For the DeLong Mountains sheep hunts—A Federally qualified subsistence user (recipient) may designate another Federally qualified subsistence user (designated hunter) to take sheep on their behalf unless the recipient is a member of a community operating under a community harvest system. The designated hunter must get a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for only one recipient in the course of a season.
- **National Park Service (NPS) areas**—For subsistence use, national parks and monuments are open only to NPS qualified subsistence users. Subsistence users must be local rural residents of NPS areas. For more information, contact the NPS office in Anchorage at (907) 644-3509.
- In Kaktovik, a Federally qualified subsistence user (recipient) may designate another Federally qualified subsistence user (designated hunter) to take sheep or muskox on their behalf unless the recipient is a member of a community operating under a community harvest system. The designated hunter must get a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than two harvest limits in their possession at any one time.
- Residents of Anaktuvuk Pass who have taken sheep within Gates of the Arctic National Park under the community harvest quota hunt are required to report the taking within 10 days to the Anaktuvuk Pass village coordinator's office.
